EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lawrence R. Fraley on February 28, 2006.

The application has been amended as follows:

In the claim:

"dielectric substrate" (claim 22, line 12) has been changed to: --circuitized substrate--.

"layer" (claim 22, line 17) has been changed to: --layer position between said first and second circuitized substrates--.

2. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest the claimed method of making a circuitized substrate assembly as presented in claims of the present application (see claim 1). Further, at best US Patent No. 6,826,830 discloses method of forming an assembly but it fails to teach a dielectric layer position between two circuitized substrates that not being engaged by the conductive paste which completely filled the opening in said the second circuitized substrate, and the cover of dielectric material layer on the external surface of the first circuitized substrate to be extending within said opening of the first circuitized substrate as required by the present application's claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donghai D. Nguyen whose telephone number is (571)-272-4566. The examiner can normally be reached on Monday-Friday (9:00-6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter D. Vo can be reached on (571)-272-4690. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
